# About this booklet

**This little booklet has one big message... you are important.**

That's exactly why so many services have contributed to this booklet from across Fife (from the Council workforce, Health and Social Care Partnership, organisations and the third sector, such as voluntary and community groups) to make up the content.

The shared aim is to make 'Staying Safe and Keeping Well' a relevant, free and handy source of information. It helps address a range of concerns that you might be experiencing – from finance to issues about health and wellbeing.

Perhaps you are looking for help under a section or several sections - maybe even browsing on behalf of someone? Whatever the purpose for reading this booklet, the contributors want you to know help and support is on hand.

**It's OK in these uncertain times to reach out for support.  
Remember you are not on your own.**

**If you plan to visit any of the organisations mentioned in this booklet, please check first before you go.**

The contents were correct at the time of preparing this booklet but please remember that this is a year long booklet so there may be changes. Once again, please check first before you go.

## Help with the cost of living

Rising costs are making life especially difficult for many friends and family this winter. If you know someone who is finding it hard to make ends meet or struggling in other ways, please encourage them to reach out. They are not alone. We're here to help and so are countless other people from all across Fife's public services and voluntary organisations. Here you'll find their contact details. Please, get in touch and encourage your friends and family too. That way we'll help each other through this winter.

# You are important. PLEASE...

## Don't keep things to yourself

It's ok not to feel ok. Try to recognise the signs that things are getting too much. Remember you are not alone. There is always someone who wants to listen and help. Talk to someone you trust. If you reach crisis point call one of the support numbers on page 3 of this booklet.

## Don't try to change anything big

Now is not the time to start a new diet, a new routine or make unrealistic resolutions. Don't stretch yourself too far or overindulge. You can always try and change things for the better, but take small steps, not all at once. Let go of some of the things you can't control and try to focus on what's most important for that day.

## Don't forget to look after yourself

Try to keep to a routine. Do things that help you look after your mental health and that keep you comfortable, safe and happy. Try to eat healthy meals and get enough sleep. Stay active if you can. Try to get out for a daily walk - it's important to get fresh air even if it's a walk around your garden or up and down your street.

## Don't forget to have time for yourself

Give yourself a break and don't be too hard on yourself. Take some time to relax. Just 30 minutes away will help. Find a space away from everyone where you can find a bit of peace and quiet when things get too much for you. If you are a regular user of social media, try to take a break from it. Visit [onfife.com](https://onfife.com) for details of places you may be able to escape to between Christmas and New Year.

**Shut Out Scammers**

- Only let somebody into your home if you know who they are.
- Be wary if someone turns up unexpectedly. If in doubt, don't answer the door.
- Check their identity card. Close the door and phone the organisation to confirm their identity if you are unsure.
- Don't feel embarrassed to ask questions about their identity - genuine callers will expect you to be careful.
- A trusted organisation will never ask for your financial or personal details over the phone or in an email.

Don't be pressured into donating money, and never make donations by cash or gift card, or send money through transfer agents such as Western Union or Moneygram.

## Scottish Fire and Rescue Service

The Scottish Fire and Rescue Service offers a **FREE** Home Fire Safety Visit. We will come to your home at a time that suits you to give advice, help spot fire hazards and cover what to do in the event of a fire. Smoke and heat detectors might be fitted as part of the visit depending on existing alarms and home ownership.

For more information on Home Fire Safety and how to arrange a visit just go to the Scottish Fire & Rescue Service website:

[www.firescotland.gov.uk/your-safety/at-home/home-fire-safety-visit](http://www.firescotland.gov.uk/your-safety/at-home/home-fire-safety-visit)

No access to the internet? It's easy to arrange a visit by calling **0800 0731 999** or just Text "**FIRE**" to **80800** from your mobile phone.

Information on the New Alarm Standard, which came into effect in February 2022, can be found using the QR Code. Just open the camera on your phone and fit the QR code onto the screen. A link to the Scottish Government information will pop up. Alternatively, visit Fire and smoke alarms: changes to the law:

## Prepayment Meters

### Emergency Fuel Top Up

If you run out of money on your meter or used your emergency credit and cannot afford to top-up, please contact your energy supplier for immediate assistance.

If you're a Fife Council tenant, contact your **housing management officer** or nearest **local office** for help and advice.

If you are living in temporary accommodation, speak to your temporary accommodation management officer.

The Scottish Welfare Fund provides a safety net for vulnerable people on low incomes by providing community care grants and crisis grants. These awards are not loans, so you do not need to pay it back. The grants are designed to help people who are on a low income, so you can apply even if you do not claim benefits. For more information visit [www.fife.gov.uk/welfarefund](http://www.fife.gov.uk/welfarefund)

If none of these are possible, Cosy Kingdom may also be able to help. If you're having difficulty topping up your meter due to mobility or issues in your personal life, please contact them for advice.

# Help with food

Food is essential and nobody in our community should go hungry. Fife has some amazing community cafes, community fridges, and pantries offering low cost meals and food items. The warm, welcoming environment is also a good opportunity to get out and meet people. A list of community cafes and food providers can be found online here:

[our.fife.scot/gethelp/food](https://our.fife.scot/gethelp/food)

People can go hungry for many different reasons: for example, from redundancy to getting an unexpected bill when on a low income. Anyone finding themselves in such a crisis can visit a foodbank for short term access to emergency food and support.

Foodbanks are non-profit organisations that receive publicly donated food which is then sorted by volunteers and distributed as food parcels.

Community Fridge/Pantry/Larders are mainly run from community centres, churches and other organisations involved in community work. They have a range of pantry items and fresh items using surplus foodstuffs from shops in the area as well as some items topped up from funding. Mostly there is a small charge for the food and sometimes a membership is required. Community Cafes, and places to access low cost meals, run from a variety of venues such as churches, bowling clubs, town halls, community centres, and community organisations - they can be free or by donation.

## Customers in crisis may be referred to a foodbank by:

- Social Worker
- Community Education Workers
- Welfare Support Workers
- Housing Officer
- Fife Council's Welfare Fund team tel. **0300 555 0265**
- Citizens Advice & Rights Fife tel. **0345 1400 095** or visit [cabfife.org.uk](https://cabfife.org.uk)
- Some GPs and health visitors can also refer you.

# The 'To Do' list

## Do have YOUR version of Christmas

Who says you have to do it the way it's always been done? Try to plan the Christmas you feel will give you the most enjoyment.

## Do be kind to yourself

Don't expect everything to be perfect. The most important thing is to have fun and spend time with people you want to be with. Get better at delegating and making sure that everyone helps on the day. Get into a pattern that keeps you well before the holidays start - like going for a walk each day and eating well.

## Do plan a special treat or a day out after Christmas

It doesn't have to be something that costs a lot of money - it could just be a day out to the Christmas lights or a walk in the park. It can help take the focus away from one big day of celebration and the let down feeling that can come after it.

## Do make sure you have enough things you need to stay healthy and well

Make sure you have enough food in to last you over the days when the shops are shut. If you've got food at home and are looking after yourself, it's easier to cope with all the other hassles and temptations.

## Do look after your health

If you've overdone it on the festive food and drink, try and go for a walk the next day. A walk gives you an excuse to get away from the festivities and out of the house for some "you" time, as well as shake the cobwebs away. To help you keep well over Christmas and the New Year, remember to order enough of any prescription medicines you will need and make sure you have other off-the-shelf remedies you might need e.g. "headache tablets".

# Families

Family tensions can feel overwhelming at this festive time of year.

- Try to get a balance between time with family/friends and 'me time'.
- Have an 'escape plan' like making a phone call to a friend.
- Make sure you have time to yourself and time to recuperate.

# Alcohol and Drug Support and Recovery Services

## HINTS & TIPS

### How to stay safe when using alcohol or drugs during the holidays

Talk to your support worker or key worker about what help you might need over the holidays. Come up with a plan for how you will cope and what you can do to keep well.

Ask your support workers or services for the phone numbers and dates of the out of hours services that will be available. You can keep these written down somewhere you'll be able to find them easily, for example pinned to a fridge, in a specific pocket of a bag or jacket or other easy to remember place or write them at the back of this booklet. If possible, you could also store them in a mobile phone.

Remember that the services will be open again in a few days, and you can contact additional services (**NHS 24 on 111 or emergency services on 999**) or report to **A&E** in an **emergency**.

Contact the out of hours services if you need to talk to someone.

## HINTS & TIPS

### General safety tips

- **Set limits:** Decide in advance how much you plan to drink or use. Stick to those limits to help avoid overindulging
- **Stay with friends:** Look out for each other. Share your plans with friends and check in on one another throughout the festivities
- **Ensure your phone is charged and you have your emergency numbers in your contacts**
- **Create a safe place:** If you are hosting, provide a comfortable area where guests can relax and avoid excessive drinking or drug use
- **It's important that both men and women plan ahead, prepare for the possibility of sex and carry condoms**

# Alcohol and Drug Support and Recovery Services

## To stay safe when using alcohol

It is easy to forget that alcohol is a powerful drug, and we need to be careful how we use it. Drinking too much has a negative impact on you and those around you.

By setting a plan you can avoid drinking too much and, hopefully, avoid the negative impacts alcohol can have, such as hangovers, doing things you later regret, getting injured, getting into fights and feeling low or anxious.

- Eat before and while drinking and avoid salty snacks, which make you thirsty.
- Be assertive – don't be pressured into drinking more than you want or intend to.
- Know your limit and stick to it. Be aware of how different substances affect you, and don't feel pressured to keep up with others. It's okay to say no.
- Alternate alcoholic drinks with a drink of water (stay hydrated).
- Stay busy – don't just sit and drink. Dance or have a game of darts or pool if you're at a pub.
- Track your drinks and don't let people top up your drink until it's finished.
- Make sure you have a safe way of getting home.
- Do not accept drinks from anyone you do not know.
- Avoid rounds, "shouts" and kitties – drink at your own pace, not someone else's.
- Drink slowly – take sips, not gulps.
- Do not leave your drink unattended.
- Try to avoid binge drinking. It has been shown to have a negative effect on our health and safety.
- Avoid mixing alcohol and drugs.

# Alcohol and Drug Support and Recovery Services

## To stay safe when using drugs

- Avoid using drugs alone.
- Avoid sharing injecting equipment (IEP).

Free injecting equipment is available from some pharmacies (check online at [www.needleexchange.scot](http://www.needleexchange.scot)) and from We Are With You (**closed 25th and 26th Dec**) and is available for delivery by calling **0800 9179211** and leaving a message.

Start with a low dose of any drug and wait at least an hour before taking any more to see if the effects are what you are expecting. The strength of a drug and what it's cut with varies from batch to batch. If you want, you can also access Wedinos ([www.wedinos.org](http://www.wedinos.org)) to test samples for peace of mind.

Avoid mixing substances, particularly depressant drugs together (Alcohol, opioids, heroin, benzodiazepines) as this increases the danger of overdose. If you choose to use, try to stick to one substance.

If you or a friend is unwell, seek medical help immediately. If possible, speak to services about getting a Naloxone kit for the event of an overdose.

## How to spot an overdose

- Unresponsive
- Snoring or shallow breathing
- Blue lips
- Pale Skin
- Pinpoint pupils

**If you think someone may have overdosed call 999 for an ambulance immediately.** Tell the call handler you think the person has overdosed and let them know if you have Take Home Naloxone. Medical help must still be sought even if the individual then feels well again after you have given Naloxone. Wait with the person till the ambulance arrives.

# Alcohol and Drug Support and Recovery Services

## Take Home Naloxone Get Trained & Carry a Kit

Naloxone can be used to temporarily reverse the life-threatening effects of an opioid overdose, buying time for the ambulance service to arrive. A person may have multiple drugs in their body, but reversing the effects of opioids with naloxone can be the difference between life and death.

If you, or anyone you have contact with, is using opioids, ensure you have a Naloxone kit. Tell those with you that you have one, so they know where to find it, and how to use it.

There are a few Take Home Naloxone products to choose from:

- **Nyxioid** - Intranasal spray, available to anyone aged 14yrs and over.
- **Prenoxad** – Intramuscular injection, available to anyone aged 16yrs and over.
- **The Pebble** - a new nasal product where two nasal naloxone sprays can be stored in a case making them easy to carry with you anywhere.

**Free** training on how to administer Take Home Naloxone, and how to access a kit **free of charge** via post, is available via

**Take-Home Naloxone - SFAD**

[sfad.org.uk](http://sfad.org.uk)

Naloxone is also available **free** from FIRST, DAPL, We Are With You, Addiction Services, Clued-Up or ask your keyworker about getting a kit.

The Scottish Ambulance Service can also train individuals and supply them with Take Home Naloxone when at a call.

## Vaccination Protect yourself from COVID-19 and Flu

If you're offered the flu or coronavirus vaccines, you've got a reason to get them.

You'll receive a letter, text message or email with appointment details or information about how to book one. You can also keep an eye out for drop-in opportunities on NHS Fife's social media channels.

You'll be offered the separate flu and COVID-19 vaccines this winter if you:

- Are aged 75 years and over (age on 31/03/2026)
- live in a care home for older adults
- are aged 6 months or over and have a weakened immune system

For more information on eligibility and vaccination, please visit:

## Right Care, Right Place

By using NHS services wisely, you can keep well and get the care you need quickly and safely.

If you become unwell and need to see a healthcare professional the same day, but it is **not** an emergency, there are different services you can use.

- During normal opening hours you should call your GP practice or you can get help online using the information and resources on NHS Inform, which includes symptom checkers [nhsinform.scot](https://www.nhsinform.scot)
- Other services such as community pharmacies, opticians, and dentists can also help you.
- Minor Injuries can assist with a range of conditions including cuts, minor burns, sprains and strains or broken/fractured bones. If you think you need to visit Minor Injuries phone 111 day or night
- For out-of-hours, when your GP is closed, you should phone 111 for advice.

If it's a **life-threatening emergency**, such as a heart attack or stroke, you should always call **999** or go directly to **A&E**.

**A&E and 999 services should only be used when people are seriously ill or injured.**

# Sexual Abuse Support

## Rape or Sexual Assault - Turn to Sexual Assault Response Coordination Service (SARCS)

### Did You Know.....?

- If you have experienced rape or sexual assault and are over the age of 16, you no longer have to report to the police or GP in order to receive medical care and support.
- If you are under 16 you can still contact SARCS but other professionals including social work and the police may have to be informed.

### What is the NHS Scotland sexual assault self-referral phone service?

The NHS Scotland Sexual Assault Self-Referral phone service can refer you to **a healthcare professional at SARCS who will phone you back to discuss and arrange care for you in your local area.** If you self-refer within 7 days of the assault, arrangements can be made for you to have a forensic medical examination (FME) at a local SARCS in order to gather evidence from your assault. For Fife, the Forensic Medical Examination Suite is located at Queen Margaret Hospital, Dunfermline.

If the assault occurred more than 7 days ago, you can still use the self-referral helpline number who can put you in contact with the local Sexual Health clinic and Gender Based Violence service.

### What could this mean for you....?

If appropriate for you, and you wish to have an FME, you will be given an appointment to attend your closest SARCS or the one most convenient for you. The FME team consists of a specialist nurse and doctor. At the time of making your appointment, you can request the gender of staff although this may not always be possible. At the time of making your appointment you can also ask if it would be possible to bring a friend or family member with you when you attend the SARCS for your examination.

# Sexual abuse

## Possible Outcomes....?

Any evidence that is collected (following your FME) will be kept and securely stored for 26 months. During that time, you can decide if you want to tell the police. Your evidence will only be looked at if you decide to report to the police. After 26 months, your evidence will be safely destroyed. This can be done earlier at your request. You can still report to the police after this time if you decide to do so.

## Further support....?

If you give your consent, your details will be passed onto the Gender Based Violence team based in NHS Fife and they will make contact with you to help arrange follow-up appointments and offer ongoing care, support and advice. They can also refer onto other support services on your behalf.

# Domestic Abuse Support

**It's difficult to accept that people you love or care for can treat you badly.**

Domestic abuse is rarely a one-off incident. It is persistent and controlling behaviour perpetrated by a partner or ex-partner. It includes physical, sexual and emotional abuse.

Recent changes in the law recognise the harm caused by “coercive control” - acts that cause harm, punish or frighten.

## **Examples of domestic abuse include:**

- Coercive control (a pattern of intimidation, degradation, isolation and control with the use or threat of physical or sexual violence)
- Depriving access to help and support services
- Depriving you of basic needs, such as food
- Financial or economic abuse
- Harassment and stalking
- Isolating you from friends and family
- Online or digital abuse
- Psychological and/or emotional abuse
- Physical or sexual abuse

Christmas and New Year can be a particularly difficult time, but there are people who can help you.
